EDUCATION

VIT-AP University B.Tech in Computer Science Engineering (AI & ML) CGPA: 7.0 (Current)	Amaravati, Andhra Pradesh 2024 – 2028
Swaminarayan Gurukul International School Class XII (CBSE)	Hyderabad 2024

TECHNICAL SKILLS

- **Languages:** Python, HTML, CSS, JavaScript, SQL
- **Core Concepts:** Data Structures, DBMS, Object-Oriented Programming (OOP)
- **Domains:** Web Development, Artificial Intelligence, Machine Learning

PROJECTS

Servify One • Developing a unified digital platform for after-sales service and warranty management in India. • Authored a comprehensive Software Requirements Specification (SRS) and established a One Person Company (Nexra Technologies Private Limited) for the platform.	<i>Next.js, Tailwind CSS, PostgreSQL</i>
Tirumala Smart Navigation System • Designing a specialized navigation tool to assist pilgrims in navigating the Tirumala temple complex efficiently. • Focused on real-time pathfinding and crowd management features to improve the visitor experience.	<i>React, Mapbox API, Node.js</i>
Mobile Feature Comparison Platform ("Mob vs Mob") • Developed a responsive web application to facilitate side-by-side feature comparisons of mobile devices. • Implemented a clean front-end interface to visualize technical specifications and differencing data.	<i>HTML, CSS, JavaScript</i>

ACHIEVEMENTS

- **2nd Position - Trade for Good:** Secured runner-up spot in a National Level Trading Simulation Competition organized by VIT-AP in association with StockGro (March 2025).
- **National Silver Medalist:** Awarded Silver in the Taekwondo National Championship.

CERTIFICATIONS & LEARNING

- **NISM Series V-A:** Preparing for Mutual Fund Distributors Certification (In Progress).
- **Machine Learning:** Completed advanced assignments on ML concepts and applications (CSE3008).
